FIG. 17A

FIG. 17A is a cross-sectional diagram of a medical device. It features a curved tube (20) that enters from the left, indicated by an arrow. The tube has a hatched outer layer (60) and a solid inner core (12). The tube is positioned within a cavity (101) defined by two horizontal lines. At the distal end of the tube, there is a multi-layered structure (80) consisting of three stacked, rounded components. An arrow on the right indicates the direction of flow or movement.
